GIRLS' REPORT

This report summarises responses to the *Girls Active Pre-Intervention Questionnaire* that female pupils completed between October 2019 and March 2020. Overall this study received **8062 responses from female pupils** in school years 7 to 13, from 48 different schools.

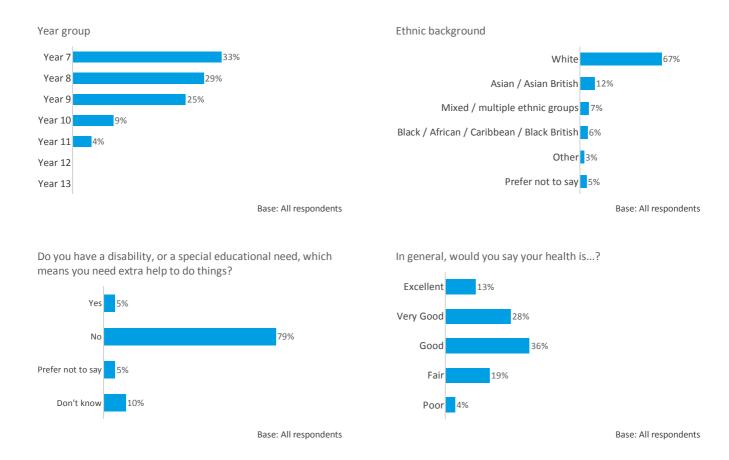

Please note: This report only contains responses from female pupils. Male pupils' responses are presented in a separate report.

For more information about Girls Active please visit www.youthsporttrust.org/girls-active

Pupil profile

The charts below show the profile of girls who responded to the questionnaire. Girls were most likely to be in *Year 7* (33%), and describe themselves as *White* (67%). 5% said that they have a disability. Overall, 41% said that their general health was either *Very good* or *Excellent*.

18% of girls said that they receive free school meals.

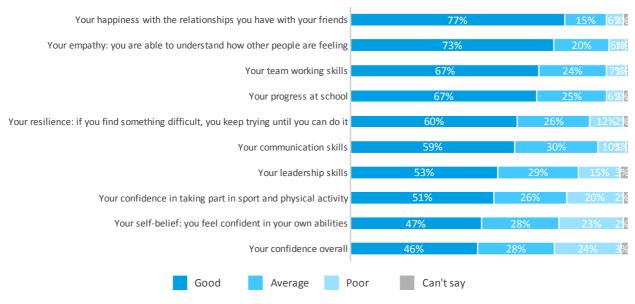

Girls were asked how happy they felt yesterday, on a scale of 0 to 10. The mean score nationally was 6.3.

Pupils were asked to rate themselves on a series of statements about confidence, happiness and other personal attributes. The scales ran from *Very good* to *Very poor*. The following chart shows responses at a national level.

How would you rate the following?

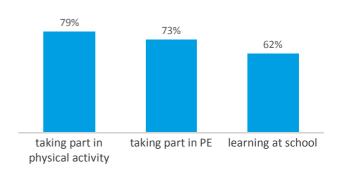

Base: All respondents

Overall attitudes to PE, physical activity and learning at school

Girls were asked how much they like taking part in PE, physical activity and learning at school, on a scale from *Like it a lot* to *Dislike it a lot*. The chart below shows the proportion that said they *Like it a lot* or *Like it*.

Girls were most likely to enjoy taking part in physical activity (79%), followed by taking part in PE (73%) and learning at school (62%).

How do you feel about the following? (% like it a lot/like it)

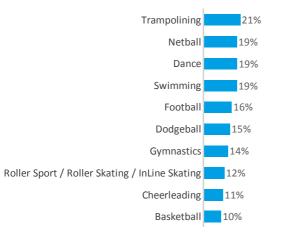

Taking part in physical activity

The chart below (left) shows the 10 activities that girls would most like to do as part of their PE lessons. The most popular activities were *Trampolining* (21%), *Netball* (19%), and *Dance* (19%).

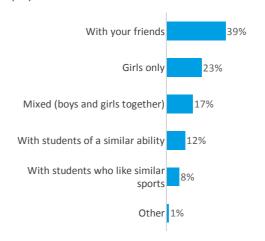

The chart below (right) shows how girls would like to be grouped while taking part in sport or physical activities, with the most common response being *With your friends* (39%).

From the activities listed, which 3 would you like to do the most in PE?

Base: All respondents

How would you like to be grouped for sport and physical activities?

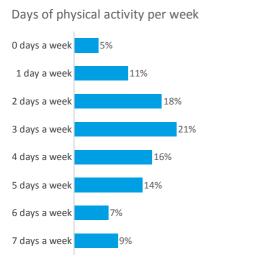

Base: All respondents

This box shows the average amount of time that girls spend taking part in physical activity on a typical day, in minutes.

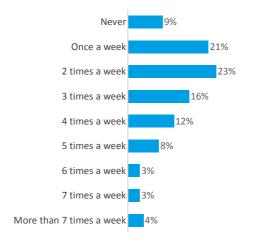

The following chart (below left) shows how many days in the past week girls took part in 60 minutes or more of physical activity. For this questionnaire, physical activity was defined as 'activity that makes you feel warmer and makes your heart beat faster'. On average, girls took part on 3.5 days per week.

Girls were asked how many times a week their physical activity included bone strengthening activities. The most common response was 2 times a week (23%).

Days of bone strengthening activities per week

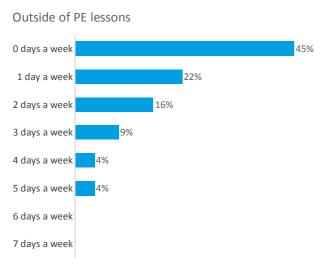

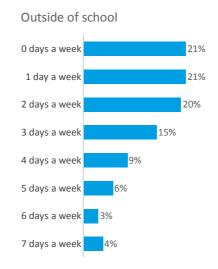

Base: All respondents

Base: All respondents

Pupils were asked how often they took part in physical activity at school, excluding PE lessons. The chart below (left) shows that girls were most likely to take part in physical activity outside of PE lessons on *0 days a week* (45%). On average, girls took part on 1.2 days per week.

They were also asked how often they took part in sport or physical activity outside of school, and were most likely to do so on 1 day a week (21%). On average, girls took part on 2.2 days per week.

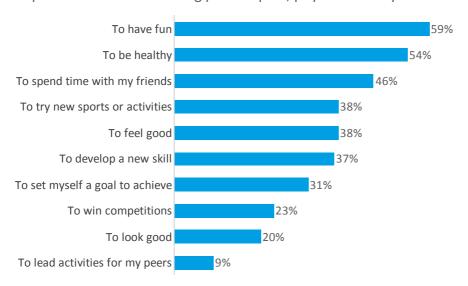

Base: All respondents

Motivators for taking part

The chart below shows the 10 most common factors that girls said motivate them to take part in sport, physical activity and PE at school. They were most likely to take part in physical activity; *To have fun* (59%), *To be healthy* (54%), and *To spend time with my friends* (46%).

Top 10 motivators for taking part in sport, physical activity and PE at school

Base: All respondents

Girls were shown a series of statements and asked which of them described their motivation for taking part in physical activity. The most common answer was *I am driven by having fun with friends* (36%).

Barriers to taking part

Barriers to taking part in sport, physical activity and PE at school

The following chart shows the 10 most common factors that girls said stop them doing more sport, physical activity and PE at school (although 4% of girls said that none of these barriers stopped them from doing more sport in school).

I am not confident

When I have my period

I don't like other people watching me

I am not good at it

I don't like the boys watching me

I don't like getting hot and sweaty

I don't like getting hot and sweaty

I don't enjoy it

I don't like the activities on offer

None of the above

Top 10 barriers to sport, physical activity and PE at school

Base: All respondents

Barriers to sport and physical activity outside of school

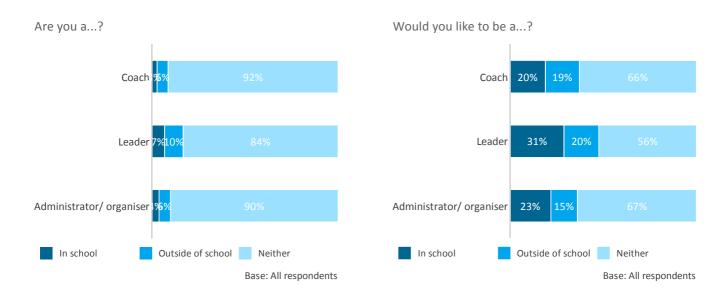

The chart below shows the 10 most common factors that girls said stop them doing more sport and physical activity outside of school (although 5% of girls said that none of these barriers stopped them from taking part in more sport).

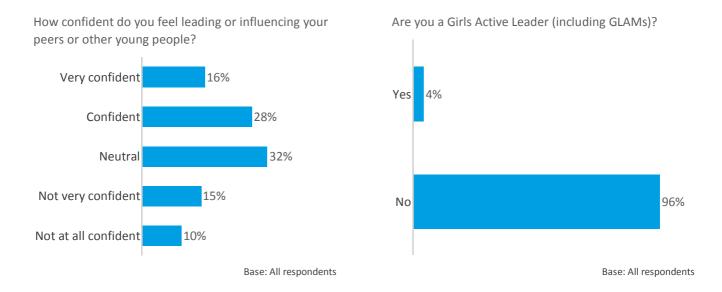

Top 10 barriers to sport and physical activity outside of school

Coaching, leadership and administration

Girls were asked about being coaches, leaders and administrators, both inside and outside of school. The chart below left shows the proportion that are currently coaches, leaders or administrators, while the chart below right shows the proportion that would like to be.

Following this, pupils were asked how confident they feel leading and influencing other young people. 43% of girls said that they were *Very confident or Confident*, 32% were *Neutral*, and 25% were *Not very confident* or *Not at all confident*:

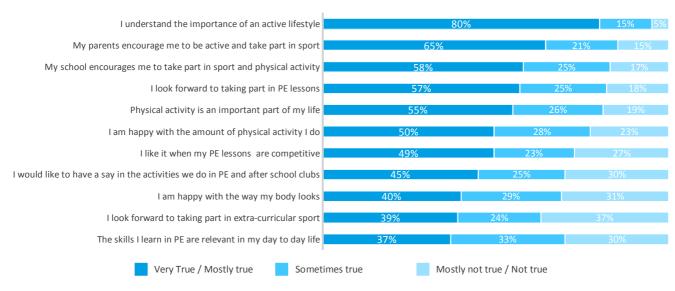

Overall, 4% of pupils said that they were Girls Active Leaders. Of those, 69% had been leaders for less than a year, 22% for 1 to 2 years, and 9% for 2 years or longer.

Attitudes towards PE and physical activity

Pupils were given a list of statements and asked whether they felt each one was true for them. The statements that girls were most likely to describe as 'Very true for me' or 'Mostly true for me' were I understand the importance of an active lifestyle (80%), My parents encourage me to be active and take part in sport (65%) and My school encourages me to take part in sport and physical activity (58%).

How true are each of the following statements for you?

APPENDIX 1 - GIRLS' DATA

In the following tables the national data is broken down by key factors, including 'physical activity level', in which 'more active' is defined as those who take part in physical activity on 5 or more days per week, and 'less active' is those who take part on one day per week or less. Responses from groups of less than 5 have been hidden, to protect the identity of respondents.

Please note: This report only contains responses from female pupils. Male pupils' responses are presented in a separate report.
